**Company profile:**

70 years ago the EBG group started its road to success as Elektro-Bauelemente GmbH. Over the years the family-owned business developed into today's EBG group: By now four businesses support the company in growing. EGB electro and EBG compleo specialise in electro-technics whilst EBG schroeder and EBG plastics are experts for plastics engineering.

EBG compleo specialized in the development of customized charging stations solutions. Meanwhile all over Europe there are more than 13.000 charging points of EBG compleo in use. Our charging stations represent persistence as well as quality and they are developed with regard to standard specifications. We also offer innovative software solutions and preventive maintenance perfects our servicing.

**Manufacturing- / delivery programme:**

<p><b>Charging station Basic Fleet</b></p> <p>Our fleet system is the right solution when you have to charge more than one car at the same place.</p>	<p><b>Charging station Basic BM</b></p> <p>As its name implies the AC charging station Basic BM offers a solid basic equipment.</p>	<p><b>Charging station Basic GM</b></p> <p>The inconspicuous alternative to the Basic BM.
