nebaTec-Handel is a civil engineering company specializing in distribution of supplementary products for subterranean urban piping, industrial piping as well as road construction.

Due to their well-equipped warehouse **nebaTec-Handel** are capable to deliver standard products directly from stock or within short time via their own forwarding department.

Furthermore they offer subsequent civil engineering according to German standard GW 15 as well as road markings via their partner company **nebaTec GmbH** (nebatec.de).
