FEIN is the specialist for professional and extremely reliable power tools and special application solutions in metalworking, interior fitting and the automotive sector. As the inventor of the electric hand drill, FEIN has been developing innovative and unbeatably efficient solutions for everyday use which can also stand up to the toughest continuous use in industry and trade for over 140 years.

As an experienced partner to the metal industry, FEIN has an in-depth understanding of the requirements of stainless steel machining and offers a range of optimum solutions in this area. These solutions include durable, robust FEIN products and also special accessories and accessory sets that are specifically tailored to stainless steel applications.

FEIN power tools and stainless steel sets enable you to machine even hard-to-reach places without any need for dismantling.
